"You Can't Take It With You"

Chuck Bigham and Debbie Lukaris play the young lovers, Tony Kirby and Alice Sycamore.

The fall play, "You Can't Take It with You," directed by Art Fuller is a comedy set in the 1930's. The play opens with Alice bringing Tony, her fiance, home to meet her unique family. The plot thickens when Tony's high society parents come to dinner one night before expected, and everyone is surprised when the FBI also drops in for a raid. Alice believes that a marriage to Tony would never work out because of the great differences between the two families. The play ends happily, however, when Grandpa Vanderhof patches up the differences between the families and Tony and Alice become engaged.

makes spring mystery a success

The spring play, **The Real Inspecter Hound** by Tom Stoppard, was set at Muldoon Manor in England. As the fog rolled in, the mystery began to unfold. Inspecter Hound searched for the crazed madman which led him to the isolated mansion. There he found a corpse and several clues. Two more murders took place before the real Inspecter Hound got his man. In addition to the short mystery play which was presented, a second cast gave excerpts from **Thurber's Carnival** to complete the drama department's spring presentation.

Play critics Moon and Birdboot watch the second murder take placé at Muldoon Manor as members of the audience watch too.

Magnus turns out to be Cynthia Muldoon's long-lost husband and the **real** Inspecter Hound.

Keewaydin introduces a new decade

The 1980 **Keewaydin** was produced by a new staff and the talents of Adviser Helen Dennis and Editor Whitney Seneker. The publication features an all new senior class portrait section in color, a larger opening in full color, and a 16 page spring supplement. Many grueling hours were spent by the staff to meet their monthly deadlines, but the finished product made it all worth while. This year the staff purchased new equipment including a camera with wide angle and telephoto lenses and an electric typewriter. Special thanks go to the building trades class for the excellent cabinets they built in the yearbook room.

Lion's Roar 2nd Semester 1980

While working on the **Lion's Roar,** Kennewick's student newspaper, students learn many skills including journalistic writing, ad selling and layout, and page layout. Students write news stories, editorials, reviews, sports articles, and feature stories. In addition to writing, each student is required to sell ad space. The advertising sold finances the more than 1500 papers printed every issue (every five weeks). Mrs. Bass was the first semester adviser and Mr. Gregorich was adviser second semester. Students enjoy the newspaper class because it is educational and fun.

Students experience Convention II

Top: Scott Conley in over his head again!
Bottom: Saturday night slumber party.

Convention II is an annual mock constitutional convention made up of high school students from all over the country. Participants debate and vote on proposed amendments to the Consitution. This year students from 21 states converged on Washington, D.C. for the Fifth Annual Session. Fourteen KeHS students, accompanied by Mr. and Mrs. Bartlett, made up the entire Washington state delegation. ASB president Tim Yount served as chairman of the Legislative committee, and he was privileged to preside in the House of Representatives. While in Washington, D.C., the group met Representative Mike McCormack who was kind enough to arrange a guided White House tour. After that, most students saw the monuments and parts of the Smithsonian. In addition to Washington, Orlando and Miami, Florida were included in the itinerary. The main attraction at Orlando was, of course, Disney World, while in Miami everyone spent a relaxing fun-filled day at the beach.

Many people harbor the dream of swooshing down a powder-snow slope at top speed showing excellent skill and precision. For some KeHS students, this dream was on its way to becoming a reality through the ski instruction program offered this winter. The skiers chose to go to Spout Springs where there were more instruction classes available, and lessons ranged from beginners to free style. Every Saturday from early January to March 8, the skiers boarded the bus for their ride to the mountains. After their lessons and an afternoon of free time on the slopes, they headed back home. Ski school members enjoyed their weekly trips and the exciting sport. They hope more students will join them on the slopes next year.

ASB officers

This year's ASB officers provided tremendous leadership and lent a fresh approach to student government at KeHS. Student Council sponsored activities which included the Almost Anything Goes competitions during Homecoming week and the annual spring fling. In mid-February, all the ASB officers as well as several U.S. history and government students attended Convention II in Washington, D.C. There they participated in a mock legislature session with other students from all over the country. The main purpose of the convention was to give high school age juniors and seniors first-hand experience about how the U.S. government actually operates. Officers returned to share their experiences with fellow ASB house and senate members.

Trainers insure athletic safety

TRAINERS C. Perkins, P. Kelly, C. Castillo, F. Sickenberger, Adviser Chris Tomashoff.

Superior ability and athletic prowess are two vital qualifications for **Lettermen's Club.** The group consists of any male varsity letter winner who is interested in the promotion of all school athletics and also in sponsoring social activities within the club. This year, a big money- raiser was the always entertaining donkey basketball contest, pitting the lettermen against members of the faculty. Their annual smoker boxing event was held in March.

Too often overlooked are the many hard-working individuals who must constantly repair the bruised, battered bodies of KeHS athletes. **Assistant Trainers Club** was organized to promote athletic training and managing and also to provide service to all athletes and coaches in school-related sports. Any student trainer or manager was eligible for membership.

KeHS sports clubs promote spirit

No school can have a successful sports program without a tremendous amount of enthusiasm from the student body. Therefore, **Pep Club's** main purpose is to keep school spirit and morale as high and feverish as possible. To do this, many members acted as "guardian angels" for several of the athletes. Their activities included making posters, leaving packages, and decorating lockers, lockerrooms, and homes. Colorful signs and posters added much cheeriness to the halls, walls, and ceiling, creating a contagious, festive air throughout the entire school. Homecoming, with all its planning and preparation, would be a monumental task for anyone, but Pep Club pulled it off beautifully this year. The silver and lavender decorations, the Travel Lodge Hotel, Led Zeppelin's million-seller "All of My Love", and an attractive Homecoming queen and court all combined to provide the perfect atmosphere for a perfect evening.

Since Women's Lib is such a major issue these days, it's only fair that female athletes get as much ink as their male counterparts. PAW (**Promotion of Athletics for Women**) was created to promote and encourage the female sports program at KeHS. To become a member, a girl must simply be involved in any school- related sport. PAW members sponsored the annual Powder Puff football game during Homecoming week, matching senior and freshman girls against the sophomores and juniors. Other fund raising activities included the foul-a-thon contest, selling Christmas stockings for the cerebral palsy fund, and sponsoring dances and bake sales.

Band wins first place in Spokane

Marching band took part in many parades.

Musical craftsmanship, pride, and sacrifice make the bands at KeHS mark excellence. The marching band began this season in August by performing in the Benton-Franklin County Fair parade, and they performed at all home football game half times. The marching Lions also took first place in competitions at Spokane, and they were invited to the Western Marching Band Association regionals where the best bands in the West competed. The concert band received a superior rating when it traveled to Davis High School for the CWMEA large group festival. The wind ensemble performed at the Yakima Valley Museum while the band was in Yakima. Jazz Lab I, a select group, traveled to four or five festivals this year and looked good in their new orange and black outfits. Jazz II was also invited to attend some festivals. After many concentrated hours of practice and drill, the high point of the year was the spring tour to Oregon and San Francisco. Band members felt all the work was worth the effort.

The choirs have sung for dinners, at civic meetings and parties, at nursing homes, and for students in the elementary and middle schools. Madhatters sang for the Homecoming assembly and made four public appearances during the Christmas season. Concert choir traveled to Eastern Washington University and performed with 18 other choirs in the Opera House. In all, the groups have competed in five different festivals in three states and also have given numerous concerts at KeHS. Laura Williams and Dale Hubbard were named to the All State choir.

Although many people are aware of a club that goes by the initials DECA, not everyone knows exactly what they stand for. **Distributive Education Clubs of America** is an organization that prides itself on developing future leaders in the fields of marketing and distribution. Club members learn the tricks of the merchandising trade, as well as salesmanship, various public relations techniques, and valuable on-the-job training. This year the group sold large coloring books for children at Christmas time and also sponsored a dance-a-thon for a children's orthopedic hospital in Seattle. The annual spring fashion show was a big hit, as club members displayed the newest looks for spring and summer. DECA students participated in both area and state competitions in several categories including human relations, advertising, apparel and accessories, general merchandise, job interviews, sales demonstrations, math, and food service.

Drill team performs super shows

They're not cheerleaders (although they do perform halftime routines), and they're not spirit coordinators (although they do aid PEP Club in supporting school athletic teams.) The group is, of course, **Drill team**. Drill team consists of 23 girls who perform routines at all home halftimes during football and basketball seasons. The group's many fund-raising projects this year included working the concession stands, selling magazine subscriptions, raffling stuffed animals at basketball games, helping the band members sell various types of seafood, and sponsoring the annual Graveyard Stomp dance in October. Also in October, both the drill team and the band placed first in marching band competition at Joe Albi stadium in Spokane. Drill team advisers were Pat Dixon and Melinda Bumgarner and student teacher Deb Borgens.

Drill team members practiced every day during first period.

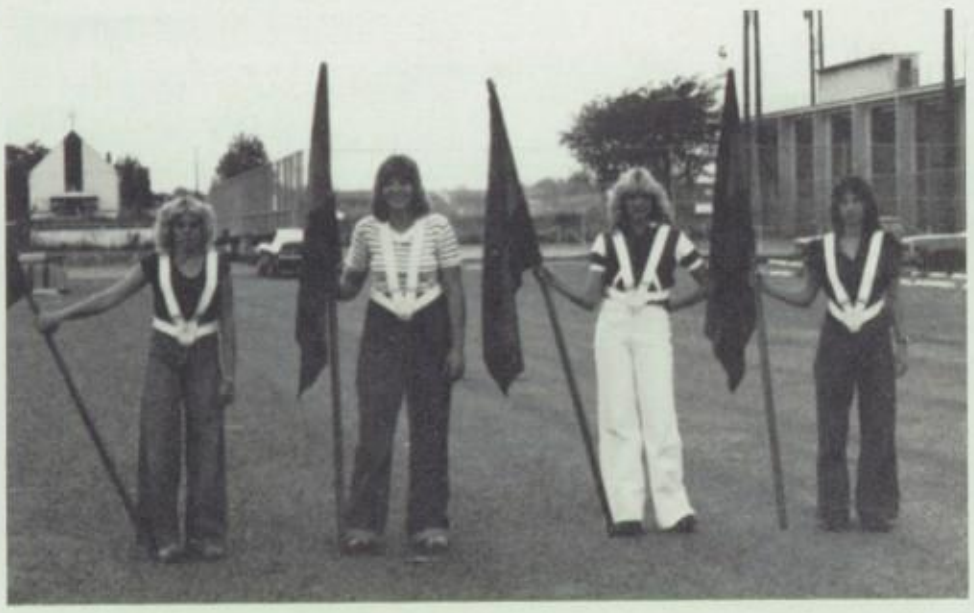
Flag team works for new uniforms



Flag girls were practicing every day during football season.

The purpose of the flag team, in its second consecutive year, was to lead the band in all parades, march at football half-time shows, and march in competitions with the band. The girls practiced daily during first hour with the drill team. They sold magazine subscriptions and candy to raise money for the new outfits they wore so proudly when they accompanied the band to California. They participated in three parades, two compeitions, and all the half-time shows during this year's football season.

AFS hosts foreign students

The **AFS** (foreign student club) of KeHS and Kamiakin are a combined student and adult club. The purpose is to gain and hold student interest in receiving and entertaining all foreign students. Members want to educate all people of the world that international love is possible - to make the world closer. This year club members sold citrus fruit at Christmas time, attended a tasting dessert, and enjoyed a ski trip. Advisers were Caroyl Case and Ray Haeg.

Key Club and NHS show initiative

Members of **Key Club,** an active service group, must show initiative, responsibility, and cooperativeness. They must have energy and be willing to work on committees. This year the club planned the Homecoming assembly, sponsored Boys' and Girls' Staters, worked with the Kiwanians on the career fair held in February, and took a ski trip with AFS members. Chris Coronado, active club member, served as Lt. Governor of Region 54 Key Clubbers.

National Honor Society recognizes scholastic achievement. A sophomore must have a 3.75 GPA, and juniors and seniors with a 3.5 are eligible. Members must maintain their grade points to remain members. Qualities of leadership and character are also important. Honor Society offers some college scholarships and honors academic achievers. A formal initiation was held for new members, and senior members and their families were honored at the annual reception following graduation.

KeHS literary talents showcased

There were many new faces on this year's **debate team**, and what they lacked in experience, they made up for in spirit and competitiveness. The team participated in round-robin tournaments against schools from Yakima, Wenatchee, and Walla Walla. Sophomore Rick Soper competed in junior and senior varsity levels, while lending a little experience to an otherwise promising squad.

Kennewick High's literary geniuses all have the opportunity to showcase their vast array of poems, short stories, essays, and art work in the annual **Literary Lion.** The staff consisted of several students interested in the promotion and production of literary arts. The staff also sponsored a contest for the best art designed cover and an original short story contest.

Language clubs learn new cultures

The study of a foreign language can be a richly rewarding experience. Students have the opportunity to learn and celebrate the customs and traditions of our neighbors overseas. **Spanish Club** members sponsored and took part in a costume party at Halloween. In addition to that, they contributed to the Salvation Army by raising money and buying toys. Caberet (**French Club**) had a welcome addition second quarter. Fatima Mouzaoui, a 21 year old amity aide from Tours, France, joined the ranks of Kennewick High in early November. Fatima taught students about french culture and helped them with converstion and pronunciation.

Artists demonstrate their talents

Promoting interest and excellence in theater arts is the whole purpose of **Drama Club.** This year's major fall production was "You Can't Take It with You," an hilarious tale of romance and intrigue. As always, the annual one-act play competition was a success for students, parents, and teachers. Victorious were the sophomores with a take-off from "A Marriage Proposal," and the juniors with a scene from "Impromptu."

Capturing life on canvas and expressing it in an original way has been a challenge for artists since the beginning of time. The purpose of **Paint and Palette Club** is to develop interest in art among KeHS students. This year the group earned money by sponsoring dances, bake sales, and car washes. Another big project was the spectacular lion painting located in the band room.

New clubs offer more activities

New clubs always add their own individual spark and spirit to the student body. **Computer Club,** which was organized this year, was no exception. Naturally, the first year is never the most profitable - financially that is - but it can always lay the foundation for better things in the future. This year club members visited the Graduate Center in Richland to observe and learn about the operation of various types of computers. To extend that even more, in February, the group actually started to build a computer.

There's a new craze sweeping the country, and it's not another hairdo or rock n' roll group. **Dungeons and Dragons** can't actually be defined in so many words, but, in short, it is a re-enaction of happenings, past or present. The purpose of organizing the club was to give all D&D players the chance to improve their skills and to move on to higher levels of experience. Club meetings were held every Monday after school, and several enthusiastic members plan to continue participating in dungeon expeditions during the summer.

Science clubs mix work and travel

To be a member of **Biology Club**, one must be enrolled in either advanced biology or oceanography. Raising money for field trips is the group's main purpose. This spring, their fund-raising efforts were rewarded with an excursion to the Olympic peninsula. There they visited the Seattle Aquarium, explored tidal pools, went hiking in the Hoh River valley, and participated in a lab at the Marine Science Center in Poulsvo, Washington.

The purpose of **Horticulture Club** is to give all interested students a chance to share information on gardening and gardening techniques. This year, the group's biggest fund-raising project was the poinsettia sale at Christmas time. In April, club members took a field trip to Victoria, B.C. where they visited Butchart Gardens, the Parliamentary Building, Provincial Museum, and Marine Land.

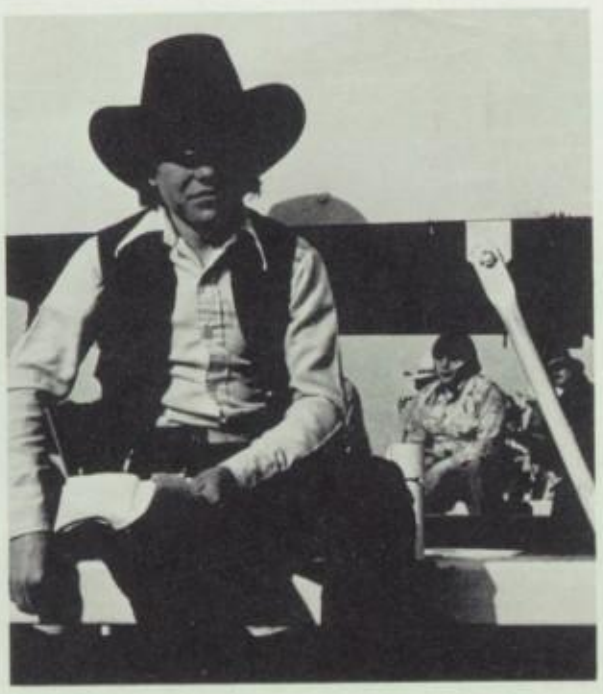
FFA backs agricultural industry



Phil Graves looks on at the FFA rodeo.

The purpose of FFA (**Future Farmers of America**) is to develop leadership capabilities and to give students first-hand occupational experiences. Club activities included working the concession stands during football and basketball seasons, livestock judging contests, and for the first time, sponsoring a parliamentary procedure contest in March. The national convention was held in Kansas City, Missouri, in October, and Barb Speer attended. The state convention will be held sometime in June in Pullman, Washington.

FBLA members enjoy active schedule

The purpose of FBLA **(Future Business Leaders of America)** is to expose students to the business environment and to learn about the business opportunities in the Tri-Cities. Members competed on a state level in stenography, typing, and law. This year's club had the largest membership ever, and at least two activities were held each month. Members heard guest speakers, visited Superior Court in Pasco, and attended a state conference in Spokane. They kept a scrapbook in which they recorded their activities in pictures.

Club members build many projects

Joyce Campbell is proud of the pair of speakers, the lovely bread box, and the napkin holder that she made in industrial arts class.

The **Building Trades Club** is composed of students who are enrolled in the building trades class. Club members are early birds and daily they were the first students to arrive as they met during zero and first hours for their class. This year the club built a pre-fabricated pump house, disassembled it, and then reassembled it at its location. Club members took a field trip to the coast in the spring to visit some lumber mills and building trades plants and to have a general outing. Club members enjoyed displaying some of their individual projects in the library at various times during the school year.

Impressive and exciting happenings for the mighty Lions helped them gain a quarter-final position this year. Once again Coach Troxel and his assistants were the spark that fired up the Lions this season. The 7-2 record the Lions clinched this year was important because it tied the finest Lion record in the past ten years. In the season opener against Lewiston, the Lions succeeded 33-21. The following week before a huge crowd, the Lions' tremendous win over Richland, the first since 1970, proved to be the high point of the season. Coming off a loss to Wenatchee, the Lions downed Eisenhower and Walla Walla and then lost a heartbreaker to Kamiakin. They finished the season with three big wins over Moses Lake, Davis, and Pasco. Walloping the Bulldogs 34-7 was a victory that Kennewick had been waiting for since last year's disappointment. The number one offense in rushing, due to the talent of the players on the line, was a determining factor in the winning season. The receivers did a fine job along with the powerful running backs, Neil Palmer and Dennis Banker, both of whom rushed for over 1,000 yards. Defensively the Lions were young, but with each game they matured into a hard-hitting bunch of stinging players in the Big 9 Conference. Although the Lions lost in the quarter finals to Shadle Park, they are a team to be feared next year.

Under the able coaching of Dave Rockstrom, the mighty Lions boys' squad again ran its way to the number one spot at the State meet held November 10 at Seattle's Evergreen High School, the annual gathering spot of the best runners in Washington.

The seven man team rallied to a 46 point total, the best team finish in the history of the race. Spokane's North Central was the runner-up with a way-back 93 points.

Junior George Fraga led with his seventh place finish. Brad Webber, also a junior and the Big Nine District champion, followed George with an eighth place with junior Pete Swanger, senior Don Zarndt, and sophomore Mark Hoitink finishing twelfth, fourteenth, and twenty-first, respectively. Sophomore Dave Space and junior Steve Eskelson also ran on the State championship team.

The State meet was a culmination of a highly successful season for the group. The team opened the year with a win over 33 teams in the Bellarmine Invitational in Tacoma, a victory in the 18-team Sun Fair Invitational in Yakima, and a second-place finish to AA champs Selah at the 25-team Richland Invitational. The team finished third against the best teams from Oregon and Washington, losing to South Eugene, one of the most prominent cross country programs in the United States. The team also took the league title with a perfect 9-0 record and the District championship with first, second, third, fifth, seventh, and ninth place finishes.

The young team will lose only one varsity member, making it quite possible to repeat this year's performance.

District Champion Paula McSparrin

The girls' team, under coaches Dave Rockstrom, Marian Desrosiers and Jan Ward, did an excellent job this year. They were the first full team girls' sport to participate in any State competition.

At State, the girls, led by sophomore Paula McSparrin's thirty-second place, finished their season with a fifteenth place showing at State. What makes this even more remarkable is that the varsity team is comprised of four juniors and three sophomores, which could make them a state power for the next couple of years.

The team finished second in league and second at District to Eisenhower of Yakima. Sophomore Paula McSparrin won the district race for the Lions.

Lion spikers serve mighty mean game

This year's volleyball teams were agile, hustling teams with much enthusiasm. The seniors contributed much to leadership while the rest of the team was young, mostly juniors. There were also three sophomores who moved up from JV toward the end of the season. "The one thing that could have made a difference in the win-loss column," said Coach Petermann, "would have been more height at the net for blocking and spiking." Next year's outlook seems brighter with many more outstanding players with experience and agility.

Boys varsity basketball team has best

VARSITY Clockwise from bottom: R. Bade, C. Loveall, M. Mahagin, J. Foreman, R. Spurck, B. Roberson, Statistician D. DeFord, F. Dyck, M. Way, J. Webb, K. Cole, C. Robinson, W. Schmelzer, Coach Ledford.

The 1979-80 boys varsity basketball team had a successful season, finishing with a league record of 10 wins and 6 losses and third place in the Big 9. Coach Elwood Ledford, in his first year at Kennewick, helped the Lions roar to their first winning basketball season since 1972. The team, consisting of ten seniors, one junior, and one freshman, was led by senior co-captains John Foreman and Mark Mahagin who did an excellent job of leadership. The season had several high points, and the fact that the team won all three of their overtime games had to be important. Early in the season, Cal Loveall took a Mark Mahagin pass the length of the court and put up a 20 foot jump shot that went in just ahead of the buzzer which gave the lions an overtime win over University. The first game against Richland, even though a nine point loss, proved the Lions were tough to beat. The highlight of the year though, was the second Kamiakin game. Finding themselves down by 21 points, the Lions began an awesome comeback. Cal Loveall put the game into overtime by sinking a 25 footer, making the crowd go wild. The Lions were then able to take control of the game and win. In the district tournament, KeHS was up against the Bulldogs. The Lions came out strong in the first quarter led by hot-shooting John Foreman and were ahead by one point 19-18 at the end of the first quarter. The momentum switched to Pasco and they led the game 51-26 at the end of the third quarter. Despite an outstanding team effort which pulled the Lions within a single point two times, they were unable to win and the final score was 69-65. This ended an enthusiastic season of work and fun as the boys learned to play as a team and to become winners.

Coach Ledford, new to Kennewick this year, came from Hollister, California where he had also coached. He enjoys hunting and fishing and absolutely loves basketball. His two little girls are the apple of his eye. Coach Ledford has a new attitude toward coaching; he feels that practice should be fun so that everyone will work hard during a game. This attitude has given the Lions a close feeling as a team and helped them to have a winning season.

Girls

All the Kennewick girls' basketball teams had winning seasons this year. The varsity started the season with the district tournament as their highest goal. They accomplished just that by placing fifth in the league. The girls' aggressive defense and their thinking offense kept the Lions in contention as tough competition in the Big Nine Conference. Seniors Tami Blaak, Chris Coleman, Teri Hallett, Patty Kelly, Connie Perkins, Laurie Scalley, and Bobbie Williams contributed much to the team and will be missed next year. Coach Barb Eggers, coaching JV teams in recent years, coached the varsity team for the first time this year. The JV girls' team developed into an inspired, cohesive "Never Say Die" team, worthy of being called Kennewick Lions. Coach Denise Lopez, new to KeHS this year, had a winning 10-9 season. Charlie Hingston coached the rookies for the first time this year. The highlight of the season was their defeat of Hanford 43-28, and they ended the season with a 7-5 record.

Brian Filbert "bullies his opponent out of the circle."

The Lions wrestling team had an excellent season this year with two state champions, Joe Wilson (148) and Dave Brown (135). The Lions as a team placed second in State behind Moses Lake. Dave Brown went undefeated for the whole season, and Joe Wilson lost only once to Wagoner of Moses Lake, but Joe went on to defeat him in district, regionals, and the state tournament. Also making it to State were Chuck Stemp (115), Jon Studer (141), and Todd Spence (148) who placed third. During a dual meet with Pasco, Jack Lester (190) created some excitement by pinning a 300 lb. heavyweight in eight seconds. The Lions placed second in league and district behind state champions Moses Lake. The wrestling team is looking forward to an exceptional season next year with returning varsity wrestlers Cres Yadao, Dwight May, Duane Bland, Todd Spence, Brian Filbert, Craig Butler, Tim Skeels, and Jack Lester.

This season was a building year for the enthusiastic gymnastics team. Coach Michelle Clarke cited the performance of Kris Woodley, a senior this year who placed third in the district in vaulting, and Sherri Peterson, who transferred from Oak Harbor. Coach Clarke commented that this year's team were hard workers and stayed with it even under adverse practice conditions. She also stated that next year with more depth they would have a good chance at district.

Laurie Palmer encourages the cheering section to help the team.

Peppy, enthusiastic varsity and reserve cheerleaders create student support which is of prime importance to Lion athletic teams. The girls attended cheerleader summer camp in Ellensburg where they received a superior rating with more points than have ever been awarded before. Kim Cross has been asked to be a student instructor at next year's camp. Under Mrs. Joseph's direction, these tireless girls practiced weekly to plan successful assemblies and initiate new cheers. They led a cheering section at each athletic event, and both squads performed well as they cheered big Lion teams to victory season after season.

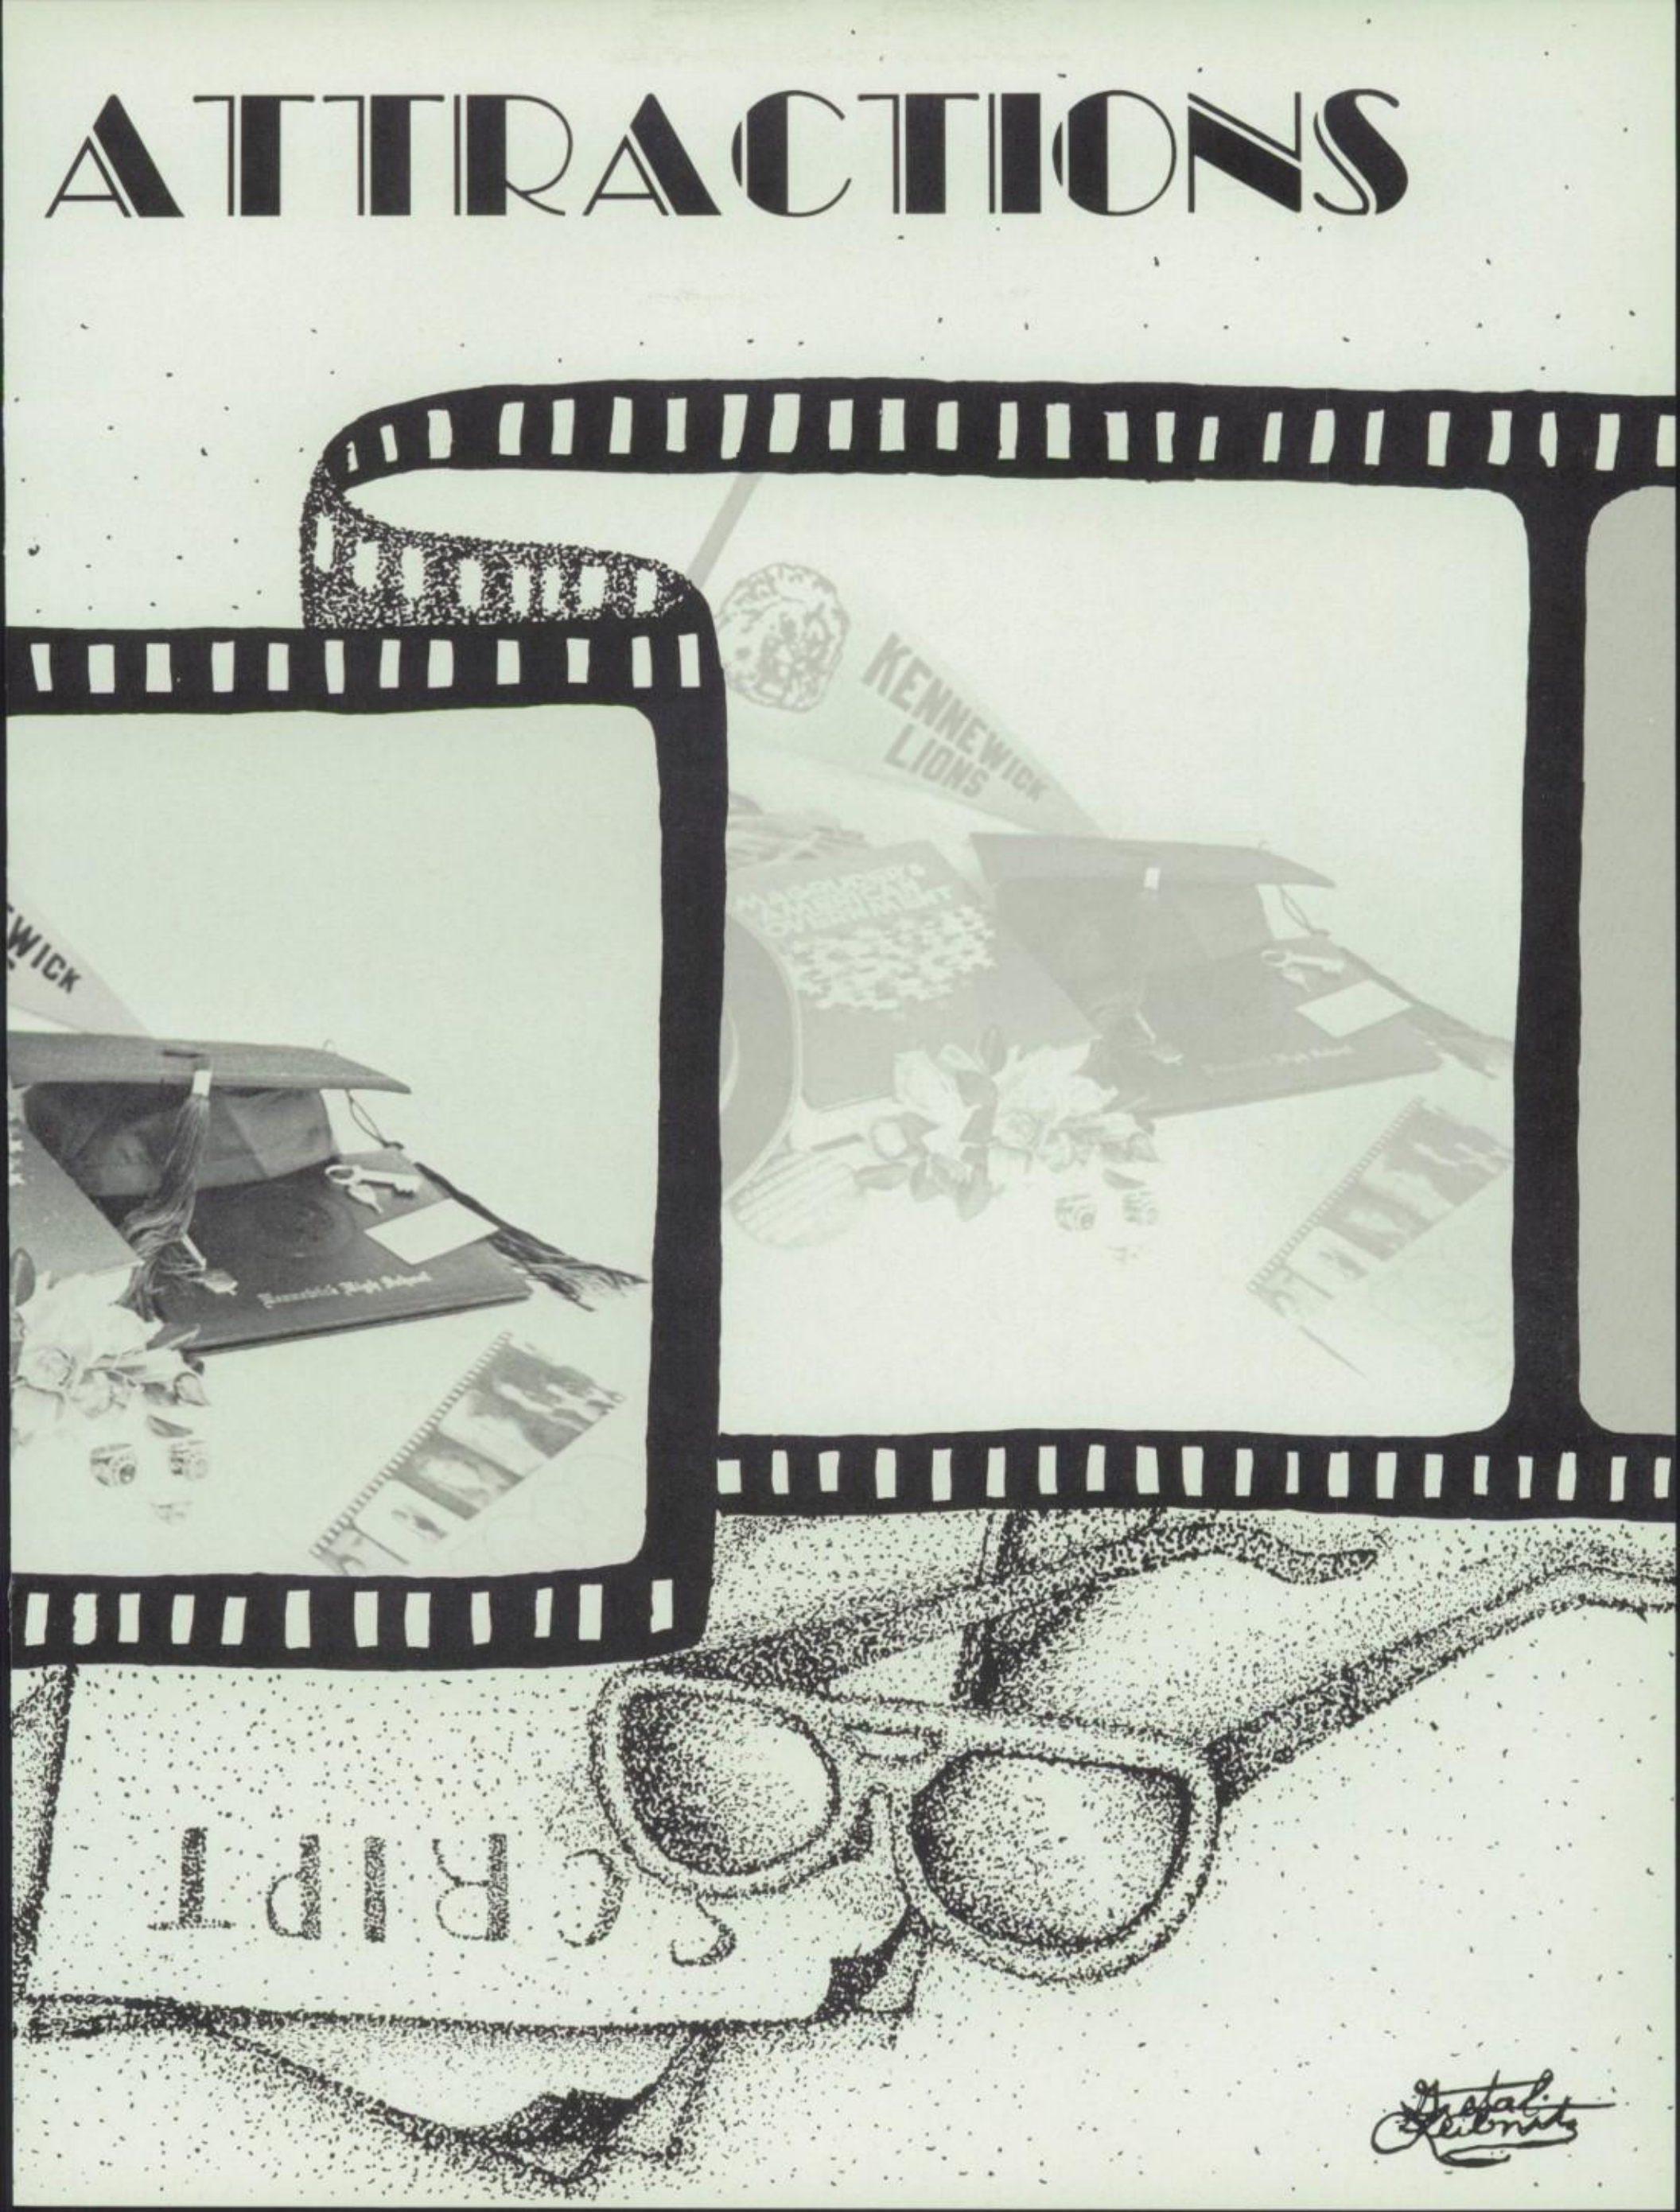
MAIN

ATTRACTIONS



Bring forth the eagle, who
soars on high,
Capture the wind, in freedom
it flies.
Seek the mountains, bold
and strong,
Search for the sea, wide
and long.
Take in the warmth of the
sun and abide,
Reach for the clouds, and
push them aside.
Let shine the moon, its
path through the darkness,
Glide through the sky,
in its colors of brightness.
Hold to your dreams, and
in them believe,
Take things in stride, and
you will receive.
Remember the day, for the
life that it lives,
Peace to night, for the
silence it gives.

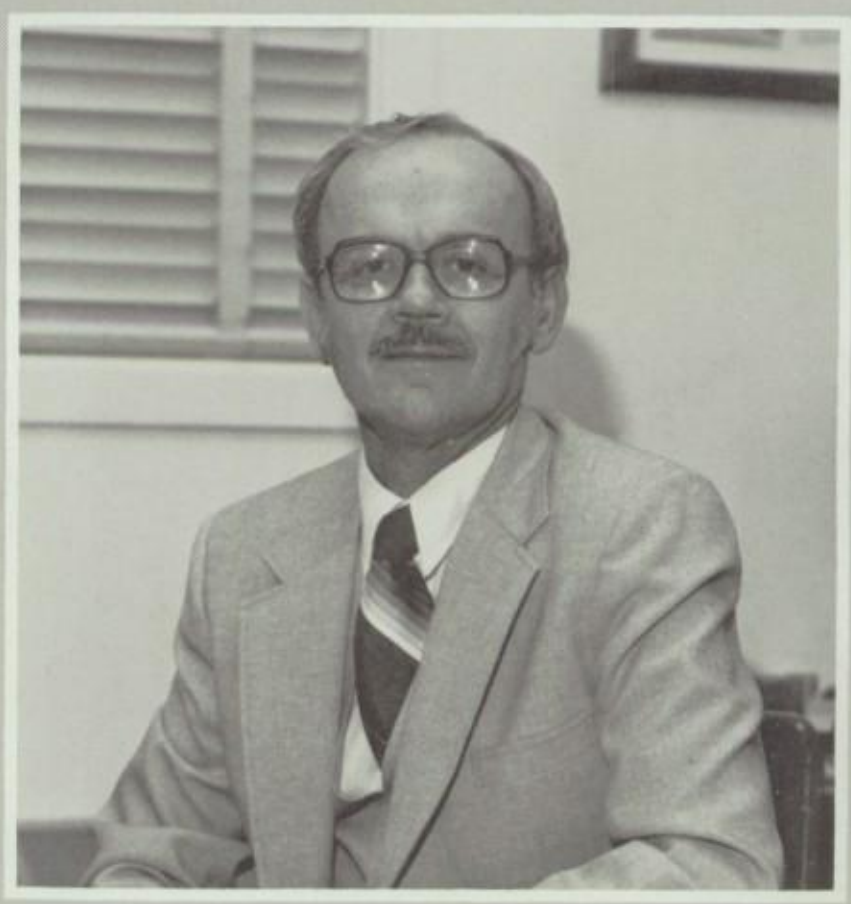
BOARD OF EDUCATION Front Row: Paul Clements, Doyle Springer-president of 1979 board, Carol Voss. Back Row: Bob Orr-president of 1980 board, Harry Jensen.

Administrators produce and direct

The board of education sets policies for the Kennewick School District. Board members' responsibilities include two high schools, two middle schools and nine elementary schools. Kennewick's 10,725 students are guided and taught by 601 counselors and teachers and administrators.

Dr. Don Anderson, in his eleventh year as superintendent, strongly believes that Kennewick students take a back seat to no one. "We have an excellent system and two very fine high schools. Our kids perform well and our graduates do well at the college level," stated Dr. Anderson earlier this year. Dr. Anderson received his bachelor's degree from Whitworth College in Spokane. He earned his master's and his doctorate from WSU. He has a broad background of work experience. He has been a high school teacher in math and science, a high school principal, and a superintendent for 22 years, 11 of them in this district. The most difficult problem he has confronted during his stay in Kennewick has been dealing with the growth of the Tri-Cities area, particularly Kennewick. "During the past five years we have survived the growth pains. In this time we have built new schools and put up portables to keep up with the demand for space," he commented. His hobbies include singing and fishing. He has three children, two of whom are KeHS graduates.



SUPERINTENDENT DONALD ANDERSON

Dr. Heinle, who just completed his first year at Kennewick, brings a broad background of experience with him, having been both a teacher and a principal. He was born in Germany and speaks fluent German and French. He is a graduate of Cal State-Long Beach and San Francisco State, and he earned his doctorate at USC. "Generally, I think we have an excellent student body in terms of academics and extra-curricular activities such as athletics. We're getting much more community support and school spirit," he stated earlier this year. His hobbies include snow skiing, reading, sports in general, and keeping up with his two elementary-aged daughters.

Mr. Smith, assistant principal, enjoys the Kennewick atmosphere. His education includes a bachelor's degree from the University of Idaho and a master's degree from Oregon State. His position at KeHS involves curriculum, attendance, and scheduling. Mr. Smith feels that KeHS has a good students body and community support. He is married and has three children. His hobbies include hunting, golf, and skiing.

Mr. Combelic has been an administrator for six years. His tasks include student discipline, extra-curricular activities, and curriculum supervision. He attended Central Washington, Eastern Washington, and Washington State Universities. In his leisure time, he enjoys outdoor activities, travel, and watching professional athletics.

New career center provides computer

A new service in the counseling department was the Washington Occupational Information Service computer, located in the library, which offers comprehensive information covering hundreds of jobs and detailed information on state colleges. The Quest machine, which selects the jobs suitable for each user of the machine, was quite popular. Also this year the career fair was reinstated and over 60 professional business people discussed their occupations with students on Feb. 13. The counselors also administered important tests and counseled students on a personal basis.

Jamie O'Donahue gathers job information on the new Quest machine.

Scholarship information is always posted on the bulletin board outside the counseling office.

Mr. MORGAN, JV basketball coach and Letterman adviser, set up the new career information center. He likes to camp and fish. Mr. HAEG likes to hunt big game, to backpack, and to swim. He advises Key club and works with the foreign exchange students. Miss JONES advises Pep club and Key club. Racquetball, sailing, water skiing, and golf are some of her activities. Mrs. SONDERMAN, junior class counselor, likes to ski and play tennis. She also enjoys watching basketball.

programming about future careers

Students pause to look into the Kevin Hyde memorial showcase.

A resource for study material and entertaining literary works, the library also provides a peaceful atmosphere for concentration. It contains over 15,000 books and subscribes to 166 magazines and seven newspapers. It houses the new career information center, and an attractive trophy case commemorating Kevin Hyde was installed shortly before the end of school last year. The Spartan 3M detection system cut book losses by 80% in its first year of use. In addition, many classes including freshman orientation, were provided to teach students to successfully use the many resources.

Mrs. MACK enjoys camping, swimming, and hiking, and her favorite spectator sport is basketball. She likes working with students best about KeHS. Miss SMITH, who is learning to cross country ski this year, rates the friendly attitude of KeHS students very high. Mrs. CASE, AFS adviser, likes working with ceramics, reading, and visiting nursing homes. Her favorite sport to watch is ice hockey. Mrs. MATTAIR, who likes reading and knitting, is an accomplished pianist. She enjoys watching basketball and tennis.

Special services include classes mainly for students with reading difficulties and learning disabilities. These students meet in smaller classes to learn additional reading skills.

The work placement program emphasizes more functional academic and pre-vocational skills. Students spend at least half of each day in this program.

CE2 (career education and community experience) is a special program offered to seniors interested in a combination of school and work. Students can take their required classes with an emphasis on each student's individual career interests. About 25 were enrolled in this district wide course which includes students from both Kennewick and Kamiakin.

The interdistrict program is a cooperative one supported by Kennewick, Richland, and Pasco school districts. Some of the offerings in this program include auto mechanics, cosmetology, radio and TV repair, cashier-checker training, graphic reproductions, health occupations, and welding.

Miss BUMGARNER works hard with the drill team and the freshman class. Playing flag-football and racquetball are some of her hobbies. Mrs. TAVARES plays volleyball for fun. She likes to watch basketball and also does needlecraft. MRS. BELL listens to music, dances, and goes boating. Football and basketball are her favorite sports. Mr. SAUER collects Indian gear and equipment. Running, parachute jumping, and auto sports are also what he enjoys doing. Mrs. BORISH really likes kids and Little League Sports. Camping and bowling are a few of her favorite activities. Mrs. STEVENS (not pictured), whose hobby is photography, likes the enthusiasm of her students. She sews, cross country skis, and watches baseball.

Many elective courses make up the language arts curriculum of KeHS. Freshman English, speech, composition, world lit, and American lit are required of all students, but the upper classmen can choose from many interesting courses. A humanities enrichment program was added second semester for gifted students. Other popular electives include classics, advanced placement (for which college credit may be earned), mythology, Bible lit, novel, reading improvement, vocabulary, creative writing, debate, journalism, and newspaper and yearbook production. The large selection encourages students to enroll in two or more English classes per semester, thus making this department the largest one on campus.

Social science teaches

The social science department expanded to accommodate the demands of government and history classes. Three seminars added this year were for U.S. history, U.S. government, and leadership, all of which were available to gifted students. Other social science courses taught include Washington state history, social science concepts, world geography, world history, U.S. history, and U.S. government and current affairs. Psychology and sociology rounded out the list of offerings.

Mrs. DESROSIERS, cross country coach, enjoys hiking, skiing, and watching track. She likes KeHS for its warmth and winning attitude. Mr. WOLLE advises PAW club and thinks it's great. He coaches softball and volleyball, and he enjoys gardening. Mr. MATTAIR, adviser of Class of 1980, played college football and is a former coach of football and basketball at KeHS. Mrs. VERNER enjoys cooking and watching baseball. She likes the cooperative students and staff at KeHS. Mr. McMAHON, who likes to read and jog in his free time, likes teaching at KeHS. Mr. PICKERELL, a teacher for 19 years, is assistant wrestling coach and likes photography, playing checkers, and watching basketball. Mr. BARTLETT, sophomore football and assistant track coach, likes to play golf. He took students to Washington, D.C. for Convention II.

New talents perform in fine arts

Fine arts includes art, drama, and music. Students may choose from basic drawing, ceramics, poster lettering, general art, which includes crafts, and oil painting. Student art work is often displayed in the glass case in the 200 hall. Creative dramatics encourages students to participate in simple skits, stagecraft teaches the fundamentals of building scenery, and drama production teaches students to produce and perform in plays. Music students may chose vocal or instrumental classes or a combination of both. The freshman swing choir is the starting point for beginners. Sunrise and Madhatters are smaller vocal groups which harmonize and perform in many local competitions. Concert choir is the largest vocal group on campus. Marching and concert bands, jazz lab bands, orchestra, and solo and ensemble groups are instrumental offerings. A music theory and a music appreciation class complete the music offerings.

Mr. WHITMAN, Paint and Pallet club adviser, coaches soccer for an 8 year-old boys' team in his spare time. Mr. FULLER, who directs all KeHS drama productions and advises drama club, enjoys performing in many community plays. Mrs. DIXON directs all the choral groups at KeHS, and she is the adviser for the drill team. Mr. OWEN directs all the bands and the orchestra. He plays the french horn and loves to ski.

Native speakers make language live

Three foreign languages are available to all Kennewick students. First and second year German consist mainly of vocabulary and grammar in preparation for reading literature during third and fourth years. This year students studying German had an added opportunity to practice German with Principal Heinle, who was born in Germany. First and second year Spanish are vocabulary oriented so students can read and understand Spanish literature taught later. French students were unusually fortunate this year to have Fatima Mouzaoui, an exchange teacher from France, here during the first semester. They quickly came to appreciate the advantages of studying under a native speaker.

Mrs. BURNSIDE collects antiques, reads, and likes to listen to music. She advises Spanish club and the junior class. Mrs. PRATT, honor society adviser, likes to knit and read, and she instigated the gifted program begun second semester. Mrs. KARLIN, who advises French club, enjoys traveling, reading, and cooking French cuisine in her free time. Miss MOUZAOUI is an exchange teacher from France, who helps Mrs. Karlin with her French classes. She enjoys music and sports.

Science and math offer students

The science department offers a variety of courses to fit every student's needs and interests. Introductory physical science is taught on the freshman level. Basic or general biology allows students to fulfill their science requirement. Chemistry and physics are upper division courses for the science-minded or those students who plan a college career. Horticulture is usually taught only second semester and is an elective for students who are interested in botany or a career in the flower industry.

Mr. VERTREES enjoys music and he plays in a band and sings in a choir. Football and basketball are his favorite sports. Mr. ROCKSTROM, cross country and track coach, is also adviser of Biology club. He likes to play handball and snow ski. Mr. HOMME participates in all sports. He is a junior class adviser; and he coaches freshman football and track. Mr. KRALMAN likes the much improved spirit shown by the students this year. He enjoys fishing and watching football. Mr. NILLES, adviser of Horticulture club, likes to garden and to jog. The mathematics department has a number of courses enabling students to further their education in math and science oriented fields. Four units are required for graduation. A new course addition this year was the math and science seminar for gifted students. From the basic courses to the honors programs, algebra, geometry, trigonometry, and calculus are offered on a wide variety of levels, thus challenging each individual student.

Mr. PONTAROLO likes to fish and play poker, and he is restoring two Corvairs. He advises the Letterman's club and coaches JV baseball. Mr. SPACE, an enthusiastic KeHS backer, always participates in dress-up days, much to the students' delight. Mr. CANTLEY, teacher at KeHS for six years, likes everything about it. He advises the newly formed Dungeons and Dragons club. Mr. CAMPBELL is an adviser for National Honor Society. Before teaching math, he taught chemistry and science. Mr. STANDIFORD's hobby is collecting gemstones. He has taught at KeHS 14 years, and he really likes the Annex's new carpet. Mr. LEDFORD, the new varsity basketball coach, believes the athletes are developing a very positive attitude. He is an avid hunter and fisherman. Miss WHEATLEY is an enthusiastic booster of KeHS and has taught here for seven years. Mr. HONROTH, sophomore football coach and sophomore class adviser, enjoys long distance running, fishing, and snowmobiling. Mr. SWANGER, loyal cross country fan, likes to fish and camp. A karate class was added to the physical education curriculum this year, and many upperclassmen took advantage of the opportunity. All students are required to take four semesters of PE which include a variety of team sports such as field hockey, soccer, softball, volleyball, and basketball. Life time sports, offered to upperclassmen as an elective, enable students to take classes in sports they can enjoy all their lives. Bowling and swimming are the most popular activities shared by these students. Weight lifting and PE X are also offered to off-season athletes so they can keep in shape for the coming season.

Traffic safety and business

Traffic safety, which teaches high school students to be safe and dependable users of the highway transportation system, is one of the classes in highest demand among Kennewick students. The course gives drivers on-the-road experience that will later enable them to use automobiles in a safe manner. The Identify, Predict, Decide, and Execute method, well-known to traffic safety alumni, has turned many students into safe motorists.

Mr. CLARK occasionally plays tennis and golf. His favorite hobby is fishing and he also likes to walk. Mr. AVERY coaches the golf team and he really loves to golf. Student pride and school spirit are what he likes best about KeHS. Mr. KOSIK has taught at Kennewick for four years. He is the assistant football coach, and he also likes to watch football on TV.

Students planning careers in the business field are greatly aided in their quest by the business department staff. Typing, an extremely handy skill to have, and many other courses are taught. Stenography, or shorthand, bookkeeping, business law, and the popular COE program are also offered. The commercial office education program gives students on-the-job training and many juniors and seniors take part in COE.

Mr. HOFF, adviser of the very active FBLA, also coaches varsity baseball. He enjoys watching his children compete in sports. Mrs. KELLEY, club adviser for FBLA, likes to train students for the business world. She enjoys horseback riding and has a Tennessee Walking horse. Mr. WING enjoys watching his kids play sports. He hunts, fishes, skis, and plays baseball. Miss EGGERS, adviser of PAW and ASB, is also ticket manager. She coaches girls' basketball and softball. Mr. SPEER has taught business courses at KeHS for two years. Miss SPEAKES, adviser for FBLA, is new to KeHS this year, and she reads, sews, and plays softball and tennis. The new vocational education department was formed by combining all the courses taught which lead to vocations. The home economics offerings remain similar to those taught previously. Beginning and advanced foods, beginning and advanced clothing, child development, single living, and consumer economics continue to be popular classes. The distributive education classes were also included in the new department. Deca students go to school part time and work part time at jobs for which they receive credit. The agriculture and farm welding classes teach needed practical skills to students who plan to make farming their career.

Mr. HAEG works with all inter-district classes, and he likes KeHS colors, the same as his own high school. Mr. WILSON rebuilds antique cars and likes the annual faculty football games. He is sophomore class and FFA adviser. Mr. HIBBARD, adviser of DECA, likes playing basketball and softball. He also likes orange and black and KeHS students. Mrs. HAMILTON travels, dances, plays tennis, and skis. She likes race car driving, soccer, and basketball. Mrs. LEDFORD, a former swimming coach, likes to swim and camp. Her favorite spectator sports are basketball and football. Miss BARKER, a first year teacher, likes to watch basketball and gymnastics. She sews and cross country skis.

Metals class trains students to work with a variety of metals. Know Your Car instructs students in maintenance and basic repairs on automobiles. Electricity shows students practical techniques in electrical repairs and wiring methods, and mechanical and architectural drawing explain drafting and blueprinting procedures.

Mr. MACK enjoys woodworking, fishing, and bow hunting. He likes KeHS's "new image" of better discipline and a winning attitude. Mr. BIRDSELL likes target shooting, hunting, and fishing. His favorite spectator sport is baseball. Mr. OETTEL makes jewelry and leather crafts. His activities include skiing, roller skating, and fishing. He enjoys watching football games.

Wade Coldiron poses beside the newly painted concession stand built by the building trades class.

Mr. Mack helps building trades students finish the pump house they made early in the year.

We did it! We've accomplished our highest goals and now we must make our dreams become realities. As graduates we can look back and remember the great times, experiences, and special friendships. We will remember Kennewick High as the focus point of everything we did.

We've witnessed many events in our senior year, from community to world events. As the school year began, we could never forget the dreadful stench of the tar on the new roof and one of the best Lion football seasons in Kennewick history. Women were included in the draft and a controversy about nuclear power. This was also the year that many of us were able to vote in our first presidential election. The Iran crisis attracted our attention to the events of the world. Our main concern at this point in our lives was preparing ourselves for the future. Getting ready for college, our goals were set on our careers and becoming our own individual persons.

I would like to acknowledge everyone who helped us this year. I want to thank the staff for their hard work and determination; we couldn't have done it without dedication. Lynette Dooley designed the cover and the small lion logos throughout the book. Gretal Leibnitz designed and drew the division pages. My appreciation also goes to the photographers, especially Chris Clark and Brian Filbert for their work done on their own time. I would especially like to thank our adviser, Mrs. Helen Dennis for putting up with the constant setbacks and dreaded late deadlines appearing around all corners. A special thanks to K. Dobbins, Dorians, North Light and Lewis studios for their terrific help. Last, but not least, I would especially like to thank Walt Wilson of American Yearbook Company who was always there when we needed him.

Well, this is it. What was once our yearbook is now yours - we hope you enjoy it!

A Part of the Kennewick tradition

Baseball, hotdogs, and apple pie are all a part of the American tradition. The Lions varsity baseball team carried out that tradition with enthusiasm. They started the season with a non-conference split with Hermiston followed by three wins and one loss to three Oregon teams. In their first series with Pasco, Joey Christianson and Scott Conley combined to strike out 15 Bulldogs. The Lions swept the double-header with home runs by Utecht, Conley, and Reeder. Mark Nevills pitched a no-hitter in the second series with Pasco and led the Lions to 6-4 and 4-0 victories. After losing two games to Richland and winning two from Walla Walla, the Lions split with Kamiakin 17-15 and 3-4. Their second double-header with Richland was a split giving a league record of 9-5 with only two games with Walla Walla left to be played.

Mark Nevills can not only pitch the ball, but he can hit it, too.

requires a third coach and team

Kathy Bernhardt shows the good form she needed in the no hitter she pitched.

Chris Crawford starts the long run to first base.

The girls' softball program has completed its second year after several years of inaction. Enough girls turned out this year to form the third or "Rookie-C" team. Coach Lopez joined the staff as the rookie coach, and veterans Wolle and Eggers coached the varsity and junior varsity teams, respectively. Varsity started the year with a 6-5 win over Walla Walla. Their third game, an exciting and close one against Hanford, was a 13-14 loss. In a double header against Pasco, the Lions walloped the Bulldogs 18-3 in the first game and then lost the second 4-9. Nancy Anderson's key hit brought Kim Bernhardt home to squeak out a 7-6 win over Kamiakin. Three outstanding seniors, Kathy Bernhardt, Laurie Scalley, and Nancy Anderson will be graduating in June, but the experienced returning players promise a successful season next year.

The boys' track teams under Head Coach Dave Rockstrom started the season with a loss to Walla Walla, even though Calvin Loveall and George Fraga captured three first places. They were not discouraged though, and came back to win the co-ed relays in Wenatchee by one point over Eisenhower. Kennewick beat Yakima with a score of 82 points. In the Kennewick-Richland-Hermiston meet, the Lions won when Senior Mark Pickel took four first places. In the same meet, Brad Webber broke the school record in the two-mile with a time of 9' 40.2". With three meets yet to run, the Lions have a 4-0 league record.

COACH TED HOMME

Watch out Big Nine! This season there was an excellent show of spirit in the turnout of runners, and even though this team was young, it was one of the best Kennewick has ever had. Early in the season, team members proved their ability and potential in a number of record-breaking performances against Richland. It was the first time that the Kennewick girls had ever defeated the Bombers. Outstanding girls Dori Roberson, Jody Waltman, Lisa Coronado, Sue Hodges, and the members of the mile relay Janis Stout, Amy Higgins, Barg Lester, and Paula McSparrin were strong points for the team. It was predicted that Paula McSparrin and possibly the mile relay team might be state contenders. The girls worked hard to improve individual times and distances. Their combined efforts should make this a good season with many teammates returning next year.

for Big Nine Conference contenders

Teri Hallett shows the style of an undefeated champion.

This year's tennis team members possessed a good attitude, intelligent judgment, excellent coordination between mind and body, an an aggressive desire to win. These qualities helped create one of the strongest teams in KeHS history. Varsity players Sophomore Steve Buckingham and Senior Steve Witherell sparked the team to a record of 11 wins and 2 losses. Senior Teri Hallett (half of last year's girls' state doubles champion team) was undefeated in singles events and has an excellent change of winning a tennis scholarship. Coach Gregorich reported that the team losses to Wenatchee and Eisenhower were extremely close, but that most of the victories were easy wins. Coach Easton stated the JV team made good progress during the year although not posting an imposing season record, and that they will be ready for varsity next year.

COACH WAYNE AVERY

Even though golf isn't as quickly associated with high school sports as are football, basketball, and track, it still is a game that requries an athlete's utmost patience, stamina, and concentration. This year's KeHS golf team had a very successful season thanks to consistent performances by juniors Rick Galbraith and Todd Hostetler and by sophomore Dave Bartholf. Twenty-one teams were entered in the prestigious Kennewick Invitational tournament, which was played on March 15. Despite the cold and extremely windy weather at the Tri-Cities Country Club, the mighty Lions were just edged out of first place by the Richland Bombers in a sudden death playoff. Although disappointed, the team still remained a strong force to be reckoned with in the district and state competitions.

Brenda,
Well it's been real
fun in history. (I guess)
Too bad you won't have
a chance to blow Mr Wolle
anymore kisses. I know that
breaks your heart. Well
I hope that you have a
great summer. Hope to see
you next year.
